ALLOWANCE

Drawings

1. The replacement drawing sheet for Figure 1 was received on 24 April 2006. This drawing is acceptable.

Allowable Subject Matter

2. Claims 3-17 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a spindle as claimed in independent claim 3 or 11, specifically wherein the combination of limitations of claim 3 includes the limitations of the air directing means or the combination of limitations of claim 11 includes the limitations of the air director.

The closest prior art is US Pat. No. 4,884,889 (Schwartzman, hereafter '889) as is discussed in detail in the previous office action.

'889 teaches various directing means in the form of a shaped cap attached to the outside of the flange (see reference number 1200 of figure 20, col. 38, lines 23-33, for example) to form an outward direction of motion.

'889 teaches the air directing means and air director 1200 attached inside the flange.

'889 does not disclose the air directing means attached to an exterior surface of the flange at the aperture as is currently claimed in independent claims 3 and 11.

Therefore '889 does not anticipate the claimed inventions of independent claims 3 or 11.

Furthermore, there is no prior art, either alone or in combination with '889 that would render obvious the claimed invention, and no motivation found to modify '889 to obtain the

Art Unit: 3722

claimed invention. And furthermore, to modify '889 to obtain the claimed invention would require hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
